

TAP THE POTENTIAL 2006 ART EXHIBIT

The Interactive Community Art Board was intended to be a way passengers at General Mitchell Airport could create a piece of art using Post-It Notes. Because we encouraged people to write messages on the notes, it turned out to be a Message Board rather than as intended. The messages provide wonderful feedback on the art, and the emotions that were engendered by the show. The messages are also political, personal, funny and included some folded paper airplanes. Most interesting is when the passenger wrote where they were from. Here are some of the messages:

“Art is the window to a person’s soul” Lady Bird Johnson. We see many beautiful souls at this show. Linda Sires

“Follow your Heart Your Heart doesn’t follow You” Rosangela Diaz
